Protect Yourself & Loved Ones During Fire Season with our **1.5" Fire Fighting Pump**

With every fire season expected to be hotter and dryer than the last, be prepared to protect your property with our Honda powered fire fighting pump. Now with Roll Over Frame for easier transportation for when you need to move water quickly and safely.

Natural disasters, such as fires can be prepared for by having a reliable portable pump on hand. Protect yourself, your family and your property against the approaching fire season by investing in a Honda petrol powered fire fighting pump from Water Master.
